

Peli 2610 HeadsUP Lite

The new 2610 headlamp provides light to the user who is able to work, hike, bike or play with free hands. It comes with a rubber strap for helmets (to avoid slipping) and a cloth strap for a head or hat. Among other features, it has an ABS resin body, a multi-angle pivoting head and is water-resistant. It combines two different levels of light, using 1 or 3 LED's for close work or short distances which provides a long burn time until replacement of the batteries. It is certified by ATEX to Zone 1 and is unconditionally Guaranteed ... forever.
