

Peli 2680 HeadsUP Lite

The new 2680 headlamp provides light to the user who is able to work, hike, bike or play with free hands and is ideal for industrial, military, Police and leisure applications. It is the first HeadsUP Lite to feature the new 'Recoil LED' technology. It comes with a rubber strap for helmets (to avoid slipping) and a cloth strap when worn on the head. Among other features, it has an ABS resin body, a multi-angle pivoting head and is submersible to 150 metres and ATEX approved to Zone 2.
